EDUCATION

University of Management and Technology (UMT) — Lahore, Pakistan | BS Computer Science | 2023–2027 (Expected) | CGPA: 3.34

- Specializing in Full-Stack Development (MERN Stack) and AI/Machine Learning
- Relevant Coursework: Data Structures & Algorithms, OOP, Database Systems, Computer Networks, Software Engineering, Operating Systems

PROFESSIONAL SUMMARY

Motivated Computer Science student at UMT Lahore specializing in Full-Stack Development (MERN Stack) and AI/Machine Learning. Experienced in building scalable web applications, RESTful APIs, and Python-based data solutions. Proficient in agile development, version control (Git/GitHub), and cross-functional team collaboration. Seeking an entry-level Software Engineering

Internship or Associate Role to solve real-world problems and grow within a professional team

PROJECTS

Movie Recommendation System | Python · Scikit-learn · Pandas · NumPy · Machine Learning · Data Preprocessing

- Built content-based filtering using Cosine Similarity to recommend movies based on user preferences
- Cleaned and preprocess raw datasets with Pandas and NumPy to optimize recommendation accuracy

Music Recommendation System | Python · ML · Data Visualization · Matplotlib · Seaborn · Content + Collaborative Algorithms

- Developed an intelligent music recommendation engine using data clustering algorithms to group similar tracks

Web Scraping & Data Extraction Tool | Python · BeautifulSoup · Scrapy · Data Parsing

- Scripts to scrape, parse, and structure data from targeted websites for analytical model

AI Chatbot Application | React.js · Node.js · Express.js · OpenAI / Gemini API · REST APIs · Full-Stack Development

- Engineered a real-time AI chatbot with dynamic frontend states and secure backend API communication

Secure User Authentication System | MERN Stack · JWT · Bcrypt · MongoDB · Session Management · Security

- Implemented robust authentication with password hashing, session management, and protected routing

Weather Application | React.js · REST APIs · CSS · Responsive Design · Async JavaScript

- Responsive weather app fetching live global data via asynchronous API calls with a clean, intuitive

Password Generator | React.js · JavaScript · UI/UX

- Utility tool with custom constraints (length, characters, symbols) to generate secure passwords

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Responsive Design, UI/UX Principles

Backend: Node.js, Express.js, REST APIs, JWT/OAuth, API Integration

AI / ML: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Data Preprocessing

Databases: MongoDB, MySQL, SQL, CRUD Operations

Languages: Python, C++, JavaScript

Tools: Git, GitHub, Postman, VS Code, Google Colab, MS Office

Core Competencies: OOP, Data Structures & Algorithms, Agile Methodology, Version Control, Debugging, Code Review, Problem Solving

SOFT SKILLS

Problem-Solving & Analytical Thinking | Quick Learner | Team Collaboration | Time Management | Client Communication | Adaptability | Attention to Detail | Remote Work
